I am an experienced JavaScript Developer, an Open Source Enthusiast who mostly develops mobile applications in React Native Redux. With more than 2000 contributions on GitHub till now, I have quite an experience with development. I am also good with designing and backend implementation a bit, so I can help out in other ways if needed. My interest mostly lies in developing applications that are challenging and are non-conventional to implement. Innovative ideas motivate me furthermore.

Education

The LNM Institute of Information Technology　　　　　　　　　　　　*Jaipur, India*
B. Tech in Mechatronics Engineering　　　　　　　　　　　　　　　　*August 2016 – Present*

Maharshi Patanjani Vidya Mandir　　　　　　　*Allahabad, Uttar Pradesh, India*
High School & Intermediate in Science with Maths & Computer Science　　　　　*May 2015*

Work Experience

Google Summer of Code　　　　　　　　　　　　　　　　　　　　　*coala*
Mentor　　　　　　　　　　　　　　　　　　　　　　　　　*April 2018 – Present*
- Mentor college students undertaking GSoC projects under open source organisation coala
- I had mentored the Meta Review/ Git Task Lists Project for Yana Agun Siswanto
- As a token for appreciation for my work, coala recommended my name for attending the GSoC Mentors' Summit in California

Google Code-in　　　　　　　　　　　　　　　　　　　　　*JBoss Community*
Mentor　　　　　　　　　　　　　　　　　　　　　*November 2017 – January 2018*
- Mentor high school students trying to learn and contribute to open source projects with the JBoss Community
- Review their set tasks within a specified time limit.
- As a token of appreciation, I got a change to attend the Google Code-in meet-up in Google Asia-Pacific Headquarters, Singapore

coala　　　　　　　　　　　　　　　　　　　　　　　　　　　　*Remote*
Developer　　　　　　　　　　　　　　　　　　　　　　*February 2018 – Present*
- One of the lead developers of the organisation.
- Google Summer of Code Mentor for Meta Review/ Git Task Lists Project for Yana Agun Siswanto
- As a token for appreciation for my work, coala recommended my name for attending the GSoC Mentors' Summit in California

Biller　　　　　　　　　　　　　　　　　　　　　　　*Jaipur, Rajasthan*
React Native Developer　　　　　　　　　　　　　　　　　*April 2018 – Present*
- Main developer of the User App and Waiter App for the Biller platform
- Managed the whole client side application

Vestir　　　　　　　　　　　　　　　　　　　*Jaipur, Rajasthan, India*
Co-Founder & CTO　　　　　　　　　　　　　　　　　*September 2017 – Present*
　Developer of the React Native based application of Vestir (`http://vestir.in`)

Addy　　　　　　　　　　　　　　　　　　　　　　　　　　　*Remote*
Founder & Maintainer　　　　　　　　　　　　　　　　*September 2017 – Present*
- Maintain the open source organisation Addy (`https://github.com/addy-org`)
- Maintain the wiki pages of Addy (`http://addy.wiki`)
- This app became the inspiration for Google Plus Codes that works on a similar principle

Volunteer Work

GitHub
Remote

CAMPUS EXPERT
October 2017 – Present

- India's 2nd GitHub Campus Expert
- Manage the LNMIIT technical community and my organisations with support from GitHub

Projects

GitHub Campus Experts Mobile App

REACT NATIVE, EXPO, ESLINT, TRAVISCI

Single handedly developed the GitHub Campus Experts mobile application. This can seen as a nice implementation of react-navigation & react-native-elements libraries, along with MapView & Geocoding.

`https://expo.io/@yashovardhanagrawal/GitHub-Campus-Experts`

`https://github.com/yashovardhanagrawal/gce-mobile`

Indeed Jobs App

REACT NATIVE, EXPO, INDEED JOBS API, FIREBASE, REDUX, ESLINT

An implementation of Indeed Jobs API, Firebase Functions & Authentication, react-navigation, react-native-elements, MapView, and my custom component react-native-tinder-swipe-component along with Redux.

`https://exp.host/@yashovardhanagrawal/indeed-jobs`

`https://github.com/yashovardhanagrawal/indeed-jobs-app`

Employee Management App

REACT NATIVE, REDUX, FIREBASE, ESLINT

An app to manage employees efficiently. Made using React-Native, Redux and Firebase Authentication & Database.
